Junior Enterprises, a Big Deal in Agriculture

Coming from two generations of agricultural workers, Luis Alonzo Jr himself began working in the agricultural industry in Imperial, Monterey, and Riverside Counties. Farming for his family was a vocation that had been passed down to him from his parents that worked in the agricultural fields of Michoacan, Mexico. In 2008, Luis took his family knowledge and pride and started his own business, Junior Enterprises, in Coachella Valley. His business operates over 800 acres of agricultural land, growing commodities like, bell peppers, potatoes, corn, green beans, and artichokes. In 2015, continuing the family tradition, Luis's twin children Luis and Celeste joined the ranks, and last year his youngest child Andres joined as well.

For Junior Enterprises, farming is a thing of pride, "knowing that we are feeding our people, our nation. Farmers and farmworkers take great pride in their work. We need food to live. I am glad the pandemic opened the eyes of our nation to see how essential farm workers are" Celeste Alonzo stated. This pride and basis on family values is evident by the support provided to the 25 year-round employees, and up to 200 contracted workers during harvest season. Through financial grants from the United States Department of Agriculture and personal protective equipment allocations from the Riverside County Agricultural Commissioner's office, including N95 respirators, face masks, gloves, and hand sanitizer, equipment that could not be found on the shelves at the time, employees had a better sense of security and comfort. The support provided by the governmental agencies allowed Jr. Enterprises to extend employees paid sick time above and beyond the two-week allotment given by the state, a promise vowed to employees by the business, to ensure that employees livelihood remained intact. The County of Riverside and the Growing Coachella Valley Program organized the first COVID-19 vaccination site for farmworker which added another layer of protection for his workers.

During last year's pandemic, many industries struggled to keep workers employed. For Junior Enterprises, this was not an issue. The support provided by the business paid its dividends as they experienced no employee turnover during that time. "They were really appreciative of my dad's vow. At the end of the day, we are all family, and we are going to take care of each other as family" Celeste Alonzo stated. The company supervisor, a gentleman named Prospero, has known Luis' father for over 40 years, and knew Luis before he was born. Prospero says that their future is uncertain. With rising water prices, short supply and increased demands for labor across the nation, the business has its work cut out for them, but this determination and value system they hold will surely help push this thriving business forward into the future.

RUBEN J. ARROYO
AGRICULTURAL COMMISSIONER
SEALER OF WEIGHTS AND MEASURES

RIVERSIDE COUNTY AGRICULTURAL COMMISSIONER'S OFFICE

Karen Ross, Secretary
California Department of Food and Agriculture
and

The Honorable Board of Supervisors of Riverside County
Kevin Jeffries, Chairman, District 1
Karen Spiegel, District 2
Chuck Washington, District 3
V. Manuel Perez, District 4
Jeff Hewitt, District 5

It is my privilege to submit the 2020 Riverside County Agricultural Production Report. This report is produced in accordance with Section 2279 of the California Food and Agricultural Code, and summarizes the acreage, production and valuation of our County's agricultural commodities.

The gross value of all agricultural crops produced during 2020 in Riverside County is **\$1,418,220,000**. This total represents an increase of \$97 million (7.3%) from last year's total value. The largest increase (21%) was seen in nursery production followed by livestock and poultry production (18.5%) while vegetable crops saw a 5.6% drop in value.

Using historical economic values, the total agricultural contribution to Riverside County's economy is approximately \$3.9 billion.

This report is our yearly opportunity to recognize the growers, shippers, ranchers and other businesses instrumental to and supportive of agriculture in Riverside County. As such, I would like to extend my thanks and appreciation to the industry for their continued efforts in providing the vital information that enables the compilation of this report. Special recognition goes to the Agricultural Commissioner's staff for their efforts in the production of this year's report.

Respectfully submitted,

Ruben J. Arroyo
Agricultural Commissioner
Sealer of Weights and Measures

<i>Pulvinaria urbicola</i>	Urban soft scale	B	1
<i>Euwallacea spp.</i>	Invasive Shot Hole Borer	B	1

PEST INTERCEPTIONS - 2020

Pest Rating Designations

"A" is an organism of known economic importance subject to state (or County Agricultural Commissioner) enforcement action.

"B" is an organism of known economic importance subject to enforcement action at the discretion of the County Agricultural Commissioner.

"Q" is an organism suspected to be of economic importance but its status is uncertain because of incomplete or inadequate information.

PEST INTERCEPTION SUMMARY 2016 - 2020

<u>Year</u>	<u>Total</u>	<u>A</u>	<u>B</u>	<u>Q</u>
2020	63	51	7	5
2019	97	83	14	0
2018	27+	20+	1	6
2017	15	5	3	7
2016	10	5	3	2
